2001	D. (Dwight) Weldon
2002	J. (Jim) Wasik

— HISTORY OF THE PSCT —

This history of the Pittsburgh Society has been written so as to show how the "Club"—"Society" progressed through the years. Excerpts from meeting minutes throughout the years are included. This has been possible for the years 1927 through 1951 because of the diligence and efforts of Hiram P. Ball who collected and preserved the meeting minutes along with other correspondence and photos for these years. From 1951 to 1985 no meeting minutes were available. Comments from this period are from mine and my colleagues memories. Preparing this history brought back many memories. Familiar names began to appear in the minutes of the late 30's. These were people I had worked or associated with in the past. I hope many of the readers will likewise experience pleasant memories from the past. The Pittsburgh Society was founded on December 9, 1927. The first name chosen was The Pittsburgh Paint and Varnish Production Club. Then, I believe, in the 1960's the name was changed to The Pittsburgh Society for Paint Technology. We chose our present name, The Pittsburgh Society for Coatings Technology in the 1970's. Our membership has varied throughout the years. It started with 13 members. By 1937, there were about 50. In 1953, we had 86 members. By the middle 70's our membership reached around the 200 mark. By 1984 we still had 176 members. Now, in 1989, we are at 112 members. Meeting attendance had been 30 to 40 per night in the early 40's climbing to 80 to 100 in the late 40's, 50's, 60's and 70's and back to 30 to 40 in the 80's.

I feel a good way to describe our Society through the years is to include excerpts from meeting minutes and activities. The following are some of the highlights throughout those early years:

The first meeting of the Pittsburgh Society was held on December 9, 1927 in the Roosevelt Hotel when the Pittsburgh Paint and Varnish Production Club was formed. There were thirteen people present. J.E. Stubb was elected president. H.E. Wilson was elected Vice President and R.H. Wilson was elected Secretary-Treasurer.

April 18, 1934 — This was a joint meeting of the Pittsburgh Paint and Varnish Production Club with the Pittsburgh Paint Varnish and Lacquer Club. Speaker was Prof. Hyee of Carnegie Institute of Technology who spoke on "Adventure in Colors."

April 3, 1944 — The U.S. Technical Committee, headed by Mr. Hiram P. Ball, reported that steps have been taken to secure the necessary coatings and information to start work on a unification program for testing of various Navy specification material.

November 1946 — "Plans for a Christmas party were presented. It was decided the party would be held at Pat McBrides on Dec. 19. The price for dinner will be \$2.50 per person for a complete steak dinner."

January 1947 — This was a joint meeting with the Pittsburgh Paint, Varnish and Lacquer Association. The speaker was Dr. Alexander Silverman of the University of Pittsburgh who traced the development of atomic energy.

September 1947 — The Pittsburgh Club formed a "standards and methods of test committee." Members are Joseph Perrone, chairman, Watson Standard Co.; R.I. Wray, Aluminum Company of America; Robert Snelling, Watson Standard Co.; R.Z Hen, Sterling Varnish Co.; and C.B. Sheridan, Bradley Paint Engineers.

November 1947 — The Pittsburgh Club presented a paper at the Federation convention titled "A Study of Soya-Tung Oil Combinations."

September 1948 — "The secretary reported that \$51.00 had been sent to Robert W. Matlack for the Federation packages to be sent to the technical men of our industry in France and England. Over \$2,500.00 worth of Care Packages have been sent by the Federation."

In 1953 we celebrated our 25th anniversary. In 1978, the Pittsburgh Society celebrated it's 50th year. Also in the Spring of 1978, the Pittsburgh Society held a waterborne coatings symposium at Carnegie Mellon. In 1983, the Pittsburgh Society obtained matching financial support from the Paint Research Institute for up to \$1,000.00 to be used to support coatings related research at local universities. In the Spring of 1985, the Pittsburgh Society assisted in holding a symposium on Instrumentation for Measuring Color and Appearance. The symposium was held at Station Square under the direction of the Manufacturers Council of Color and Appearance, the ISCC and the Federation.

The social activities throughout the years has varied. In the early years the Society held an annual picnic. This was discontinued in the 1950's and the annual golf outing started about that time. The annual Christmas party was an early event. It wad discontinued in 1978 because of poor response. However it was revived again in 1986 and has so far been quite popular. The spouses night which started sometime in the past (probably in the 1960's for which period I was able to find any records) was discontinued in 1982 because of low interest. It also was started again in 1987 and it also has been very popular. The educational activities of the Pittsburgh Society has taken form in such areas as participation in high school career nights, presenting talks to local colleges and funding research at local universities.

Ray Uhlig — 1989

As time goes forward, the Pittsburgh Society has also changed with the times. The Society has focused on the education of its members and potential coatings formulators. The monthly meetings continue with the tradition of technical presentations and social gatherings. These technical presentations assist in the continuing education of all members. Presentations to the Spouses and Members have included perception of color, new trends in color, historic culture in Western Pennsylvania and the most picturesque painted towns in the United States.

In 1997, the Pittsburgh Society for Coatings Technology established the **Hiram P. Ball Scholarship**. This scholarship is presented yearly to deserving relatives of the Society Membership. Mr. Ball presented the first scholarship named in his honor at the June, 1997 meeting. Since its inception, the number of scholarships offered has grown from one in 1997 to four in 1998. Proceeds from the annual Golf outing and participation in the Pittsburgh/Cleveland Society for Coatings Technology Symposium have made this increase in support possible.
